## MOTIF

### **Mausoleum of Kadam Rasool Ji**

Situated on Kishanganj-Khagra road the Mausoleum of Kadam Rasoolji is said to be three hundred years old. People from all walks of life including Hindus and Muslims come to worship here for three days from the 1<sup>st</sup> day of Baisakh (April-May) when a Urs is held. It is believed that offering of Chadar here brings relief and prosperity in ones' life.

## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup>.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Krishnamoorthy Senthil Kumar, Director of Census Operation Bihar. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

New Delhi.  
Dated: 16-06-2014

(C.Chandramouli)  
Registrar General &  
Census Commissioner, India

## Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and these are printed in every Census because of their wide ranging utility. Census after Census much innovations/modifications have taken place in the District Census Handbooks in terms of coverage and content of population data. This is the most valuable district level publication brought out by the Census Organization on behalf of the State Government. Its inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective district. This publication has, thus, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era of planned development.

The District Census Handbook project is joint venture of the State Government and the Census organization, and is brought out in two parts, viz. (i) part A – the village and town directory and (ii) part B – containing village and town wise Primary Census Abstracts pertaining to total population. It also contains the District Primary Census Abstracts for the total population and the Scheduled Caste and the Scheduled Tribe Population by rural-urban break-up. Keeping in view the pace of development and demand by the data users, the scope of Village Directory Data has been further widened up by incorporating more data parameters on Educational, Medical, Banking Communication facilities. Town Directory data is presented in seven statements covering Status and Growth History of towns, Physical Aspects and Location of Towns, Civic and other Amenities, Medical Facilities, Educational, Recreational & Cultural Facilities, Industry & Banking and Civic & other amenities in Slums respectively.

This volume of the District Census Handbook (DCHB) is concerned with Part-B of the Publication dealing with Primary Census Abstract of the district. It is worth mentioning that the District Census Handbooks of the Census of India, 2011 are being made available in electronic format in addition to printed volumes keeping in view the demands of the data users.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes which have taken place in the districts during the decade.

I am grateful to the State Government agencies for their co-operation in collection of such a huge mass of data. I would like to make a special mention of the warm and whole hearted co-operation which was throughout extended

by the District Magistrates, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In my office Shri Mritunjay Kumar, Deputy Director, Mr Manjul Mayank Pandey and Mr Ramesh Prasad, Assistant Directors supervised the project at different stages. District and C. D. Block Maps were prepared in Map Section under the overall supervision of Shri Dharendra Kumar, Assistant Director and Sri Debatosh Biswas, Senior Geographer (Map). I am thankful to all of them. The name of other officers and officials who were associated with this project is shown under Acknowledgement.

I am personally indebted to Dr C Chandramauli, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results. I am also grateful to Sri Senthil Kumar, ex Director of Census Operations, Bihar, Patna for their sustained support and unfailing guidance throughout our endeavours. I am equally indebted to Dr. Pratibha Kumari, Assistant Registrar General of Social Studies Division and Dr. A.P. Singh, Deputy Registrar General (Map) for spontaneous help and encouragement at different stages of the work of this project. I am also thankful to Sri M.S. Thapa, Additional Director, Mr Anil Kumar Arora, Joint Director and Mr Ramesh Kumar, Deputy Director of DP Division of Office of the Registrar General, India, New Delhi who supplied software, finalised data and tables.

Arun Kumar Saxena  
Joint Director of Census Operations,  
Bihar, Patna

## HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, news papers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.:(i)-Status and Growth History of towns,(ii)-Physical Aspects and Location of Towns,(iii)-Civic and other Amenities,(iv)-Medical Facilities,(v)-Educational, Recreational & Cultural Facilities,(vi)-Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## Brief history of the district

Kishanganj district, which was a part of Purnia district till 1981 Census, acquired the status of an independent district on 10<sup>th</sup> January, 1990. It has a rich heritage and close linkage with the district of Purnia. It consists of 7 community development blocks, viz., Terhagachh, Dighalbank, Thakurganj, Pothia, Bahadurganj, Kochadhamin and Kishanganj.

The district is bounded on the north by Nepal and Bengal, on the South by the state of West Bengal and Purnia district of the state of Bihar, on the east by the state of West Bengal and on the West by the district of Araria of the state of Bihar.

The history of Kishanganj is a part of the history of the ancient kingdom of Anga and covered the area west of Mahananda. The area to the east of the river was under the control of the pundras. Anga remained an independent kingdom till the 6<sup>th</sup> century B.C. When it was annexed by the Magadh Emperor, Bimbisara. The subsequent history of the district is therefore, linked with that of the great Magadh Empire.

The district later formed part of the empire of the Imperial Guptas which in 340 A.D., under Samudra Gupta extended right upto Assam. Following the overthrow of the Guptas by the Huns, Old Purnia passed under Baladitya, the king of Magadh. Hiuen-Tsang, who visited paundra Vardhan (eastern purnia) in Circa 640 A.D. found prosperous people and the countryside having numerous tanks and groves and abundant crops. At the beginning of the 7<sup>th</sup> Century the district seems to have come under Sasank, the King of Gaur, was a Shaivite and did his utmost to destroy Buddhism. He was followed by Harsha, The great Buddhist. From the 9<sup>th</sup> to 12<sup>th</sup> Centuries the district was under the control of pala and the Sena Kings of the Bengal.

The conquest of Bihar town, then capital of Bihar, by Bakhtiar Khilji towards the close of the 12<sup>th</sup> Century saw the commencement of Muslim rule in the State. His successor Ghyasuddin Iwaz extended the limits of the territory to include virtually the whole of Bihar. This district (Old Kishanganj subdivision) also must have come under Muslim rule in the beginning of the 13<sup>th</sup> Century. However, since it formed an outlying part of the territory and revenues from it were not easily collected, the control remained rather loose. In fact some of the northern portions of the district continued to be under the sway of the hill tribes of Nepal. Thus very little is known of the history of the district till the 17<sup>th</sup> Century. The district was administered by Mughals through Governors of who also combined the revenue powers of amildars. *Amildars* Ostwal Khan was the first such Governor followed by three others. He maintained very good relations with Murshid Kuli Khan, the Nawab of Bengal and

managed to bring to book the refractory local chiefs including Durian Singh of Birnagar. Saif Khan also recovered large areas of territory on the northern border of the district and had then cleared the forests. He rendered his full support to Ali Vardi Khan who became the new Nawab of Bengal. Saif Khan died in 1750 and was succeeded by his son Fakhruddin Hussain Khan. The latter proved a poor administrator and squandered much of the wealth accumulated by his father. Fakhruddin Hussain Khan prudently surrendered before Saiyed Ahmad Khan, the nephew and son-in-law of Nawab Ali Vardi Khan. Saiyed Khan proved himself as an efficient administrator and was held in great esteem on account of his noble living and appreciated for his just and fair dealings with all and sundry. He died in 1756, a few months before the death of Nawab Ali Vardi Khan against whom he had started an infructuous intrigue. Shaukat Jung succeeded his father as Governor, and was given the whole of old Purnia as a revenue free *jagir* by the Nawab. Ali Vardi Khan was succeeded by Siraj-ud-daula who was apprehensive of the designs, his cousin, Shaukat Jang might have had on the Diwani. So he marched towards Purnia, reaching Rajmahal in 1756. But his troops could not be persuaded to proceed further. Meanwhile, Shaukat Jang refused to take up arms and accepted Siraj-ud-daul's Suzerainty. Soon afterwards, he was instigated by Mir Jagar Khan the Bakshi at Murshidabad, to try his hand at obtaining the Diwani. At the same time the Grand Vizir issued a firman appointing Shaukat Jang as the Viceroy of Bengal. When Siraj-ud-daula sent a messenger informing him of the grant of certain *Jagir* to a Hindu Chief, Shaukat retorted that Siraj-ud-daula should quit the vice-royalty of Bengal in his favour. This naturally infuriated Siraj-ud-daula. He marched against Shaukat Jang with a division under his own command up to the right bank of the Ganga and sent another division under his Diwan, Raja Mohan Lal along the left bank of the river. Meanwhile, Raja Ram Narain, The Governor of Bihar had also been ordered to march on to Purnia from Patna. Shaukat Jang entrenched himself in a strong position at Baldiabari (between Manihari and Nawabganj) but the lack of any clear-cut-strategy resulted in his meeting utter defeat, he himself having been slain in the battle(1756).

On Siraj-ud-daula's death (July 1757), Nazir Ali Khan took possession of the town, imprisoned Mohan Lal and seized the treasury with the support of Achint Singh, holder of four parganas, who was made the Prime Minister.

Mir Jafar Khan was now the Nawab of Bengal. He sent Khadim Hussain Khan who took over control and became the Governor of Purnia.

The whole areas of the then Purnia passed into the hands of the British in 1770 when Mohammad Ali Khan was the Governor of Purnia. He was replaced by Duccarrel, the first English Supervisor or Collector of the district. The district was marked by severe famine in which according

to the European Supervisor, almost half of the *ryots* lost their lives. In 1872 the district was transferred from the control of the Bihar and Banaras Board of commissioners to the Calcutta Board of Revenue. With the creation of Commissioner's Divisions in 1829, Purnia was included in Bhagalpur Division. In 1834 it was placed under Rajshahi Division under which it continued until 1893 when it came back to Bhagalpur. It again went to Rajshahi in 1905 and later came back to Bhagalpur under which it has continued ever since.

The early years of the British rule were largely concentrated at establishing law and order and setting up of the revenue administration on a sound footing. Raids and depredations in border villages by Nepali Sardars took place in 1788 and again in 1793 in spite of a commercial treaty signed with Nepal in 1792 to secure a lasting demarcation of the boundary with Nepal to prevent further raids but it did not meet with appreciable success.

The next important event in the district is the movement of 1857. The 73<sup>rd</sup> Regiment of the Native infantry and a detachment of the 11<sup>th</sup> Irregular cavalry were then stationed at Jalpaiguri, just across the eastern border of the old Purnia district. Although the administration did not expect any trouble at Jalpaiguri, nevertheless, a corps of Nepalese, was allowed to be raised by Kerr, an indigo planter of the district, in October, 1857. Two detachments of the 11<sup>th</sup> Irregular cavalry at Jalpaiguri rebelled on 4<sup>th</sup> December and Yule, Commissioner of Bhagalpur learnt on the 9<sup>th</sup> that they had passed south of Kishanganj. In the engagement that followed on the 11<sup>th</sup> December, the rebels retired after fighting bravely and with small casualties and injuries. Yule later unsuccessfully tried to intercept the insurrectionists from Dacca from entering the forests of Nepal. No further fighting took place in the district.

The movement of 1857 led to measures for tightening up the administrative system. An earthquake took place in 1897. In the same year a scheme for taming the turbulent Kosi was mooted by engineers though it was actually taken up only after the country obtained independence.

The people of the district also participated in the agrarian reforms and the congress movement. Many prominent lawyers of the district left their practice and joined the non-co-operation movement of 1921.

Dr. Rajendra Prasad and Mahatma Gandhi visited the old district of Purnia in 1921 and 1925 respectively. Over 700 persons from the old district were arrested in connection with the Salt Satyagrah. The district like other districts of the State, has thus played an important role in the country's freedom struggle.

## Administrative set up

The district forms a part of the north Bihar Plain and lies in the northern portion of the state of Bihar. The district is bounded on the north by Nepal and Bengal, on the south by Bengal and Purnia on the east by Bengal and on the West by the district of Araria. It consists of 7 community development blocks, viz., Terhagachh, Dighalbank, Thakurganj, Pothia, Bahadurganj, Kochadhamin and Kishanganj and 3 Statutory Towns viz, Thakurganj(NP), Bhadurganj(NP) and Kishanganj(Nagar Parishad). There are altogether 771 villages in the district.

Kishanganj is the 30<sup>th</sup> largest district in term of population and 28<sup>th</sup> largest district in terms of area. Total area of the district is 1884 Square kilometers, which is spread over seven C.D. Blocks. Total number of Gram Panchayats are 126 which consist of 771 villages of which 732 villages are inhabited and 39 villages are uninhabited.

District Magistrate is posted in the district who is the top most official of revenue and civil administration. He often belongs to I.A.S. cadre. District Magistrate conducts development and welfare works in the district. ADM and other officers are posted in order to help D.M. In the administration. The district has only one subdivision Kishangaj which is headed by subdivisional officer either from I.A.S. or B.P.S.C. cadre. S.D.O. is under direct authority of D.M. There are 7 development blocks in the district where B.D.Os. are posted who undertake development and welfare projects.

**Judicial Administration:** The Judges and Munshif magistrates are posted at district and subdivision who administer and deliver justice of different kinds. The district judiciary is part of Indian judicial system as envisaged in Indian Constitution and independent of district administration.

**Police Administration:** The Superintendent of Police, Kishanganj is the head of the district police administration. The Deputy Superintendent of Police is posted to assist the police superintendent who is either from the Indian Police Service or the Bihar Police Service. In the subdivision of the district, the Deputy Superintendent of Police is posted who keeps control on police administration.

## District Highlights 2011 Census

- Kishanganj ranks 30<sup>st</sup> in terms of population (16,90,400) and 28<sup>th</sup> in terms of area (1,884 sq.km.) in the state of Bihar.
- In terms of population per sq.km. Kishanganj is the 29<sup>th</sup> densely populated district in the state with 897 persons per sq.km as against the state's 1,106.
- Kishanganj ranks 4<sup>th</sup> in terms of sex-ratio (950) against the state's 918.
- Kishanganj ranks 1<sup>th</sup> in terms of child sex-ratio (971) against state's 935.
- There are 39 uninhabited villages (out of 771 total villages) in the district of Kishanganj.
- Jirangachh (under Thakurganj C.D. Block) is the most populated village (14,241) and Chapra Bakhri (under Thakurganj C.D. Block) is the least populated village (4) in the district.
- C.D. Block Kochadhamin has the highest number of villages (150) and C.D. Block Kishanganj has the lowest number of villages (72) in the district.
- Churli (under Thakurganj C.D. Block) has the largest area (1,799 hectare) and Debiganj (under Pothia C.D. Block) and Pirani (under Kishanganj C.D. Block) have the smallest area (3 hectare each) among the villages in the district.

## **Section - I**

# **Primary Census Abstract (PCA)**

# Brief Note on Primary Census Abstract

## Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

## 2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if

available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFOA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
